Cloud and the Cloudlets

Cloud would like to introduce the Cloudlets, her two pretty big, healthy babies. Aren't they just adorable.

Cloud's story is a case of incorrect sexing by a breeder so she's been living with and sold on with a pair of boys. When the new owners realised something was amiss they knew she needed more than they could offer and made the difficult decision to give up their much loved pet.

Baby guineas or pups are born covered with fur and with their eyes open. They will very soon be trying out all mum's food and have already been attempting to eat hay. Cloud is proving to be a good mumma even though she's barely 3 months old herself. All three will stay at the Rescue until the pups are weaned.

SOME OF OUR VOLUNTEERS

DofE Volunteers

Revel not feeling good but having a cuddle with a DofE Volunteer

Adoptions - 14 guinea pigs

Boarders - 62 guinea pigs, 1 tortoise

Bonding - 11 guinea pigs

- 14 boxes of hay,
- 2 bags dried grass,
- 1 bag dried forage

SOME OF OUR BOARDERS

Sanctuary Update

The Sanctuary lost both **Gnocchi** and **William** in November.

WAYS TO HELP

AMAZON WISHLIST

From A Foster Carer

I first met Caz the wonderful founder of AGPR back in 2019, when one of my guinea pigs needed emergency rehoming, due to fighting with my older Boar. Caz then assisted me in re pairing my piggie Monty with another friend. Unfortunately he never found his match and passed away a short time later. My children were devastated and thats when Caz offered me the chance to help the rescue, by becoming a foster carer. I have looked after so many beautiful Piggies I have lost count.

We have helped to tame them and “childproof” them with my crazy kids always wanting to supply lots of hugs and love to them. Its such a rewarding job and offers the perfect mix of guinea pig cuddles, without the long term commitment of having your own Guinea pig.

In October 2023 I had a phone call to see if we could foster two boars that had been handed in for rehoming. Of course we jumped at the chance and thats when it happened, we had our hearts melted by the beautiful Dale. Dale has now been adopted by us, neutered and we are now waiting to pair him with a piggie wife after Christmas. We have been absolutely blessed to have been involved with Guinea Pig fostering and will continue to help out when Caz needs us.
